RULING ON ENTITLEMENT¹

On February 13, 2023, James McGinnis filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered a Table shoulder injury related to vaccine administration (“SIRVA”), as the result of the tetanus (“Tdap”) vaccination received on January 20, 2022. Petition at 1. Petitioner further alleges that he suffered the residual effects of his injury for more than six months, and that there has been no prior award or settlement of a civil action on his behalf as a result of his injury. See Petition at ¶¶ 8-9. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On March 8, 2024, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent states that

DICP has reviewed the petition and medical records filed in this case and has concluded that compensation is appropriate. DICP has concluded that [P]etitioner's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table. Specifically, [P]etitioner had no history of pain, inflammation, or dysfunction of his right shoulder prior to vaccination; pain occurred within 48 hours after receipt of an intramuscular vaccination; pain was limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain [P]etitioner's shoulder pain.

Id. at 4 (citing 42 C.F.R. §§ 100.3(a), (c)(10)). Respondent further agrees that Petitioner "suffered the residual effects of his condition for more than six months" and "has satisfied all legal prerequisites for compensation under the Act." *Id.* (citing §§ 13(a)(1)(B), 11(c)(1)(D)(i)).

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
